Dear Kwiyagat School Community,

Safe2Tell was founded on the idea that early intervention is key to preventing violence and saving lives.

FOUNDING PRINCIPLES

Safe2Tell was developed with the following principles.

- Safe2Tell wants to **educate** the community on the importance of reporting safety concerns, break the code of silence, and provide a trusted way for young people to anonymously make reports about things they may see or hear.
- Safe2Tell's goal is to **encourage** everyone to play a role in prevention.
- Safe2Tell wants to **equip** our community with a direct way to report concerns anonymously.
- Safe2Tell **empowers** those who have the intention to help, prevent, or protect to make a difference.

We know that students often know about mental health concerns or safety concerns about their peers before adults do. We encourage students to be advocates for their community and be part of keeping everyone safe. Kwiyagat Community Academy always encourages students to talk to a trusted adult first when they have concerns. However, we know it isn't always easy for students to speak up. Safe2Tell is a resource that was created to provide an anonymous way for students to make reports any time, any day.
